

## LITHIUM-ION BATTERIES NOW OPTIONAL ON SELECT JLG® SCISSOR AND VERTICAL MODELS

JLG® is committed to continuously introducing **new products and technologies** to keep you **productive on the job site**. Now, you can outfit select scissor, vertical and stockpicker lifts with **Lithium-ion batteries**. Choose from **Lithium**, offering one battery on most models, or upgrade to **Lithium+** offering an **additional battery**. See chart below for model applicability.

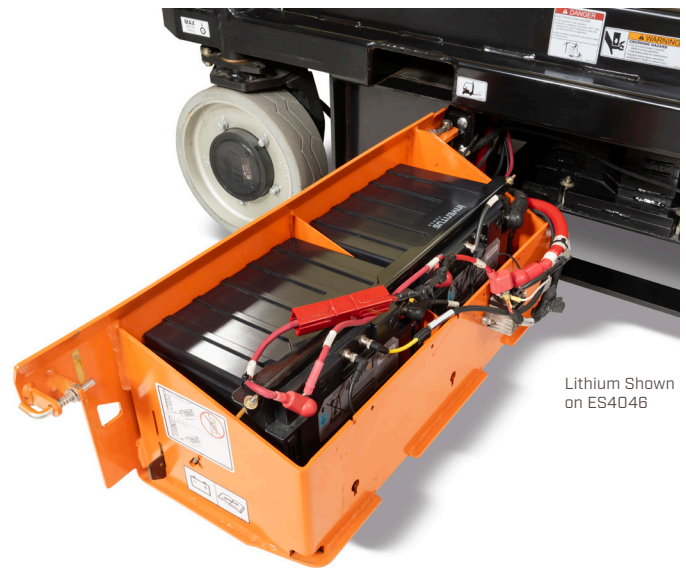

### KEY BENEFITS

#### Zero Performance Degregation

- Maintains top-of-the-line productivity even as the battery is being depleted
- Maximizes performance of lift, drive and steer functions

#### Fast Charging Capabilities

- 5 min. of charge provides 100-ft of driving and enough torque for loading
- Opportunity charging where the machine accepts periodic charges throughout the day without damaging the battery
- Quick, 30-min charges lead to hours of productivity
- Fully charge in as little as 2.5 hours with optional charger, or 3.5 hours with standard charger

Lithium Shown on ES4046

### KEY FEATURES

- Amp up duty cycles with Lithium+
- Standard and high capacity chargers available
- Clean, leak-free operation
- Virtually maintenance-free
- Extended battery lifespan

		LITHIUM	LITHIUM+
Model		Lithium	Lithium+
Scissor Lifts	ES1330L / ES1530L / ES1932 / ES2632 / ES2646 / ES3246	1 Battery	2 Batteries
	ES4046	2 Batteries	3 Batteries
