# Attachment Catalog/Load Chart Information

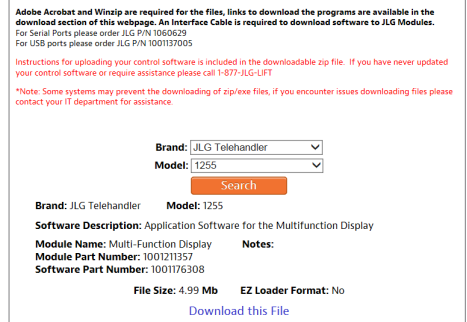

## Electronic Load Charts

Electronic load charts are available only for models with optional multi-functional displays - JLG 642, 643, 1043, 1055 and 1255 ONLY.

Please follow step-by-step instructions below to download latest load chart software for in-dash display.

### Instructions to Download from Online Express

- Click **Service** in the navigation menu on Online Express
- Click **Machine Control Software**
- Select **Brand** from drop down menu
- Select **Model** from drop down menu
- Click **Search**
- Look for software description relevant to the machine (lifting lug/no lifting lug, ANSI/Metric)
- Click **Download this File**

**1001187087 is a reference number only - It is not an orderable load chart part number.**

An Interface cable is required to download software to JLG Modules.

The display must have a P2.0 or later software to use the Trash Hopper chart.

**For any load charts not listed** - Please call the parts contact center for assistance

### Important Reminders

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Never use your attachment as a work platform or personnel carrier.

**Can't find what you're looking for?**  
**Contact the Aftermarket Parts Team at 877-jlg-lift (877-554-5438) or visit online at [www.jlg.com](http://www.jlg.com).**

# Dual Fork Positioning Carriage

The dual fork positioning carriage allows the operator to adjust the width between the forks without leaving the cab.

## Features

- Dual fork positioning carriages require auxiliary hydraulics
- Standard up-and-down tilt on horizontal plane
- Dual fork positioning carriage is not compatible with fork mounted attachments
- Fork and Carriage sold separately

**Current Production - Dual Fork Positioning Carriages**  
Available Through JLG Aftermarket Or With New Machine Orders

# Side-Tilt Carriage

Adding to the versatility of the telehandler, the side-tilt carriage keeps the load level even when the terrain isn't. The carriage tilts loads from side-to-side to allow for uneven landing areas like a roof or sloped bank.

## Features

- Side-to-side tilt on vertical plane
  - +/- 10 degrees on SkyTrak or Lull
  - +/- 10 degrees on JLG or Gradall
- Load or unload at any angle

### Current Production - Side-Tilt Carriages

Available Through JLG Aftermarket Or With New Machine Orders

# Standard Carriage

The standard carriage is manufactured with high quality steel and is available in various sizes. This attachment is essential on most job sites, allowing operators to pick and place materials – from pallets of concrete block to loads of lumber.

## Features

- Standard up-and-down tilt on horizontal plane
- Multiple fork options
- Available with 8000 lb. lifting hook for most current production applications

**Current Production - Standard Carriages**  
Available Through JLG Aftermarket Or With New Machine Orders

## Swing Carriage

The swing carriage permits the operator to maneuver loads through openings and tight spaces like windows or scaffolding by swinging the carriage to the right or left.

### Features

- Right and left 90° swing option
- Right and left 180° swing option
- Standard up-and-down tilt on horizontal plane

### Current Production - Swing Carriages

Available Through JLG Aftermarket Or With New Machine Orders

# Tower Carriages

The tower increases mobility and efficiency on the job site. It allows the operator to move materials to a higher row of scaffolding by extending the vertical reach without any additional boom extension.

## Features

- Tower requires auxiliary hydraulics
- Available with side-tilt carriage
  - JLG and Gradall models equipped with tower with side-tilt carriage requires auxiliary electrics
  - Lull 1044C-54 and 1044C-54 SII models equipped with tower with side-tilt carriage requires second auxiliary circuit
- Available with side-shift 100° swing carriage

### Current Production - Tower Carriages

## Auger

An auger expands the functionality of your telehandler. Not only can the machine go up in the air but also down into the ground. With various auger bit sizes available, the operator can be precise in choosing one to best fit the task at hand.

### Features

- Auger Drive Motor Part No. 1001092816 & Adapter Part No. 6043600  
Required for SkyTrak and Lull E-Series applications
- Auger Drive Motor Part No. 51012 Required for Lull C-Series applications

## Fork Mounted Bucket

The fork mounted bucket provides the versatility of a bucket with the convenience of not needing to remove forks and carriages.

### Features

- Cost effective alternative to a coupler mounted bucket
- For use with approved JLG telehandlers

### Specifications

- Maximum capacity: 2000 lbs
- Maximum weight: 705 lbs
- 60" bucket
- Bucket width: 1 cu. yd.
- 48" forks
- Distance to center of gravity: 22.5 in.

# Grapple Bucket

The grapple bucket uses hydraulic arms to secure bulky loads and materials. This feature is useful when cleaning up natural disaster sites and day-to-day job site scraps. Grapple buckets are not designed for digging.

## Features

- Independent grapple arms require auxiliary hydraulics (except 619A, 723A, G5-19A and G6-23A)

### Current Production - Grapple Bucket

Available Through JLG Aftermarket Or With New Machine Orders

# Material Bucket

Use the material bucket to scoop and carry loose material and debris like gravel or dirt. The material bucket can also be used for clean up around the job site. Material buckets are not designed for digging.

## Features

- Available in different widths and capacities for various jobsite requirements
- Bucket teeth kits available for 0930008, 0930009, 0930015 and 0930016 material buckets (purchase part number 1001094612)

### Current Production - Material Bucket

# Coupler Mounted Lifting Hook

Optimize the use of your JLG telehandler with the new coupler mounted lifting hook. The lifting hook attaches directly to your machine, without the need of a carriage or forks. The lifting hook allows the ability to lift a suspended load without the obstruction of forks extending beyond the attachment.

## Features

- Directly mounts onto machine coupler
- Picks up and carries loads as easily as a fork mounted lifting hook
- Increased visibility of load for operator

## Specifications

- Maximum capacity: 15,000 lbs
- Maximum weight: 178 lbs
- Distance to center of gravity: 4.4 in

# Fork Mounted Lifting Hook

The fork mounted lifting hook provides the operator with the ability to lift and lower suspended loads without removing the carriage.

## Features

- Not for use with cubing or block forks
- Maximum fork size: 2.36 in. x 7.09 in.
- Use standard load chart for all fork mounted lifting hooks.
- Fork drop must be at least 3.75" below bottom of carriage to lock pin.

**Current Production - Fork Mounted Lifting Hook**  
Available Through JLG Aftermarket Or With New Machine Orders

# Fork Mounted Extendable Truss Boom

The Fork-Mounted Extendable Truss attachment is ideal for metal building erection, setting wooden trusses, putting up post frame building and many more "low rise" applications. This attachment is designed to mount on most existing forks, and is extendable, allowing for convenient lifting and placing of objects around the worksite.

## Features

- Designed to accommodate a maximum fork size of 2.36 x 7 x 72 in
- Fits JLG and SkyTrak Models
- Fork Mounted Extendable Truss Load Chart advising length and capacity restrictions depicted below

# Material Handling Arm

Optimize the use of your telehandler with the JLG material handling arm. The three-way adjustable arm allows your machine more movement and versatility, adding to jobsite productivity and efficiency.

The material handling arm is excellent for various industries, including: construction, civil engineering applications, contractors and the rental industry.

## Features

- Telescoping capabilities in three locked positions.
- Multiple lift points allow the material handling arm to handle different load lengths and weights
  - Fully extended: 2000 lbs lift capacity
  - Mid-boom extension: 3000 lbs lift capacity
  - Fully retracted: 4000 lbs lift capacity
- Arm extends and retracts manually for reliable operation.

## Specifications

- Distance to center of gravity: 3.7 inches

### Current Production - Material Handling Arm

# Pipe Grapple

Optimize the use of your Telehandler with the JLG Pipe Grapple. The Pipe Grapple handles various pipe diameters and configurations. The arms fold down on the pipe/poles to secure and prevent the load from rolling off or tipping sideways. The arm design offers the most versatility for handling various diameters and lengths. When idle, the arm assembly pivots to the full vertical position so the truck can be utilized for typical loads.

## Features

- Can handle long pipe or pole material efficiently
- Help to stabilize a load of long pipes or poles
- Specially designed clamping arms mounted on top of carriage

## Specifications

- 72" carriage
- 48" Forks (ITA - hook mounted)
- 2" - 30" pipe diameter

**Current Production - Pipe Grapple**  
Available Through JLG Aftermarket Or With New Machine Orders

# Sheet Material Adapters

The sheet material adapter is ideal for carrying large, flat materials such as drywall, steel plates or plywood, limiting damage during transport.

## Features

- May be used with standard, side-tilt or swing carriage
- May be used with pallet or lumber forks
- Includes swing function: 45 degrees right or left
- 72 in. carriage required

### Current Production - Sheet Material Adapters

# Sweeper

Our heavy duty sweeper is durable enough to perform under the most challenging conditions and is capable of handling all types of materials, including fine dirt, gravel, millings and other debris.

## Features

- Increased bucket capacity by 22% with less carry over
- Increase efficiency by dumping less frequently with a larger capacity bucket
- A simple tool-less adjustment knob allows you to accommodate brush wear and still maintain increased bucket capacity.
- Ideal for heavy duty cleanup, millings and snow removal
- High dump feature activated by reversing flow
- Hopper positioned in front
- Powered from loader hydraulics
- Designed and manufactured to construction grade
- Quick Attach mounts
- Industrial quality motor
- Broom rotates clockwise for maneuverability
- Hopper opens for dumping

## Specifications

- Max Capacity: 1717 lbs.
- Max. Weight: 1490 lbs
- Width (overall): 105 in
- Length (w/o quick coupler): 72.25 in
- Max. Hydraulic Pressure: 3500 PSI
- Distance to Center of Gravity: 32 in.
- Brush Diameter: 26 in.
- Flow Range: 15-50 GPM
- Brush Width: 7ft.
- Sweeping Width: 84 in.
- Hopper Capacity: .53 yd<sup>3</sup>

# Tire Handler

## New Tire Handler Available for JLG® Telehandlers

Create more versatility for your telehandler with the new tire handler attachment. This solution helps increase productivity by reducing or eliminating the manual labor involved with tire mounting, removal, and handling. Quickly and effectively replace and maneuver tires on your jobsite!

### Features and Benefits:

- Rugged, lightweight construction
- Strong I-beam arm bars but without the weight
- Strong, rigid frame that resists flexing
- Nylon arm bearings are protected from damage
- Fast and economical part replacement
- Heavy duty rotator with 360° of continuous rotation
- Capacity of up to 7,000 lbs and range of 34 in. to 108 in.

Check out these features and benefits in action: [https://www.youtube.com/watch?v=aOw3vBo1\\_rg](https://www.youtube.com/watch?v=aOw3vBo1_rg)

| JLG MODEL | PART NUMBER |
|-----------|-------------|
| 1644/1732 | 1001258523  |

NOTES:  
· Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.  
· Never use your attachment as a work platform or personnel carrier.

# Trash Hopper

The Trash Hopper can increase job site efficiency by reducing the time and personnel required to move trash and other debris to and from elevated sites. Once the bar under the hopper is placed on the trash bin and pressure is applied, the hopper can be tilted forward and the door will open to allow trash to fall out. To latch the door again, simply tilt the hopper back. The exclusive JLG design of the bar mechanism does not allow the door to open when no pressure has been applied.

## Features

- Saves time from moving trash to and from elevated sites
- Allows operator to remain safely in the cab with the hands-off bar design
- Increases productivity as operator can quickly empty the hopper without leaving the seat

## Specifications

- Maximum Capacity:
  - 72"
  - 1.9 cubic yard capacity
  - 2000 lbs. maximum weight capacity
- Maximum Weight: 864 lbs.
- Distance to center of gravity: 32.5 in.

### SEE IT IN ACTION!

Visit <https://goo.gl/FHyNbP> or on Online Express, click on Attachments/Trash Hopper and look for the link.

**Note:** The fork pockets on this attachment will not allow use of forks larger than 5.5" wide and 60" long.

**Current Production - Trash Hopper**

# Truss Boom

When lifting and lowering roof trusses, framing walls or steel beams into place, use the truss boom; available with or without a winch.

## Features

- Truss boom with winch feature requires auxiliary hydraulics

### Current Production - Truss Boom

Available Through JLG Aftermarket Or With New Machine Orders

**NOTES:**

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

# Quick Coupling Assembly

The quick coupling assembly is a skid steer coupling that replaces the standard JLG style coupler.

## Features

- Heavy duty
- Optimizes machine versatility
- Expands attachment options

**Current Production - Quick Coupling Assembly**  
Available Through JLG Aftermarket Parts

|          |           |            |
|----------|-----------|------------|
| PART NO. |           | 1001117498 |
| MODEL    | SN BREAKS |            |
| JLG      | GS-18A    | ALL        |

NOTE: When coupling is installed, JLG coupling style attachments cannot be utilized.

**NOTES:**

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Never use your attachment as a work platform or personnel carrier.

# Forks

There are three main fork types available: the pallet fork, the cubing fork and the lumber fork.

### Pallet Forks

- handle palletized material and other loads that require transportation and placement

### Cubing Forks

- smaller width
- used to load, unload and place cubes of brick and block

### Lumber Forks

- wider width
- ideal for separating stacks of lumber

### Current Production - Pallet Forks

Available Through JLG Aftermarket Or With New Machine Orders

**NOTES:**

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

### NOTES:

- Use only JLG approved attachments with proper handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

### NOTES:

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

### NOTES:

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

### NOTES:

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

## Fork Pins and Bars

Whether you call it a fork pin, fork bar or fork shaft, we can supply your JLG Telehandler with the size you need. Looking for a specific size? Please refer to the table below. If your size is not listed, or for compatibility questions, consult the JLG Parts Department prior to purchase.

### Features

- Available in diameters from 1 7/8" to 2.36"
- Zinc Plated for durability

| SIZE (in.)         | PART NO. |
|--------------------|----------|
| 1 7/8" x 53 3/4"   | 10138064 |
| 1 7/8" x 54.06"    | 10138499 |
| 1 7/8" x 76 1/4"   | 10116207 |

# Fork Extensions

The fork extensions increase your machine's versatility on the jobsite.

## Features

- Factory approved
- Designed specifically for JLG manufactured telehandlers
- Requires two per machine
- Requires fork part number 1001092391 or 2340039 for use

### Current Production - Fork Extensions

Available Through JLG Aftermarket Or With New Machine Orders

### NOTES:

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

### NOTES:

- Use only JLG approved attachments with proper material handler model/attachment load capacity charts displayed in the operator's cab.
- Forks rated less than the attachment and/or machine capacity decrease the capacity of the attachment and machine to that of the forks.
- Forks rated more than the attachment and/or machine capacity do not increase the attachment or machine capacity.
- Never use your attachment as a work platform or personnel carrier.

Can't find the attachment you are looking for? Contact your JLG Aftermarket Parts representative at 1-877-JLG-LIFT or visit [www.jlg.com](http://www.jlg.com).

# Fork Caliper

Worn out forks are unreliable and inefficient on the job site. A fork caliper can help you to identify fork wear before it becomes an issue.

If the inner jaws pass over the fork, wear is more than 10%. When wear is more than 10%, the fork must be removed from service and replaced. If the inner jaws hit the fork, wear is within the tolerance and the fork is approved for use.

## Features

- Pocket portable
- Easy to use on the job
- Measure the thickness of the fork arm shank

| DESCRIPTION  | PART NO. |
|--|----------|
| Fork Inspection Safety Kit<br>(Includes fork arm wear caliper guide, inspection log and caliper) | 70011840 |
| Caliper  | 7025304  |

10% wear = 20% reduction in operation capacity

This chart shows how fork wear reduces truck capacity. ANSI/ITSDF B56.1-2012 standards require that each fork be at least half the capacity of the truck at the rated load center distance as shown on the truck nameplate. Refer to ANSI website: [www.itsdf.org/pB56.asp](http://www.itsdf.org/pB56.asp)
