5. All function & speed cut-outs operate properly.				
Manual descent system and/or auxiliary power system operates properly.				
7. Brakes operate properly. (swing & drive)				
Machine controls operate properly at platform & ground control stations. (lift, swing, drive, telescope, etc.)				
PLATFORM ASSEMBLY				
Platform installed & secure. Mounting hardware free of damage & secure. Gate opens & latches properly.				
2. Platform guardrails & floor in place, secure and undamaged.				
3. Lanyard anchorage points secure, undamaged & labeled.				
BOOM ASSEMBLY				
Boom sections free of damage, distortion & excessive wear.				
Inspect all wear pads, attaching hardware, boom covers & shields for proper installation, secure, undamaged & no excessive wear.				
3. Inspect boom chains/cables, sheaves, sheave pins & bearings for proper adjustment, no cracks or excessive wear.				
Powertrack is free of damage, distortion & excessive wear. Cables/hoses are properly routed, no chafing or leaks.				
Inspect all pins & attaching hardware for proper installation, no excessive wear, secure & undamaged.				

Hood doors open & latch properly.	
Turntable bearing, swing drive & gear secure and undamaged, properly lubricated. No missing bearing bolts or signs of looseness.	
3. Turntable lock secure, undamaged & operates properly.	
CHASSIS	
1. Wheel rim nuts torqued properly.	
Check tires for proper inflation, damage, and wear. Proper tires installed.	
Outrigger/extendible axles operate properly. Interlocks function properly.	
4. Check torque hubs for proper fluid level.	
POWER SYSTEM	
Engine idle, throttle & RPM set properly.	
2. Battery fluid levels correct.	
3. Air & fuel filter clean.	
4. Fuel, coolant and engine oil level correct.	
5. Fuel cap tight & vent open.	
6. Exhaust system free of leaks.	
HYDRAULIC/ELECTRICAL SYSTEM	
All cylinders free of damage, no evidence of leaks.	
2. All areas around hydraulic components (pump, oil lines, reservoir) free of oil, no evidence of leaks.	
3. Hydraulic filter clean.	
4. Hydraulic level in tank correct.	
5. Hydraulic tank cap tight & vent open.	

Y=Yes (Passed) N=No (Failed) C=Corrected NA=Not Applicable HYDRAULIC/ELECTRICAL SYSTEM (continue		N	·
All hydraulic fittings & lines secure, free of damage, chafing & leaks.	Ť		
7. All electrical connections tight, no corrosion or abrasions.			
8. Pumps & motor secure, undamaged & free of leaks.			
MANUALS & DECALS			
ANSI/SIA Manual of Responsibilities in manual storage box.		П	
Operator's & Safety Manual in manual storage box.			
3. AEM Handbook in manual storage box.			
 Capacity decals in place, secure & legible at both ground & plat- form stations. 			
5. All safety & instructional decals installed, secure & legible.			
GENERAL			
Lift is free of unauthorized modifications or additions.			
2. Paint and overall appearance.			
Applicable Safety Bulletins completed.			
Inspect general structural condition including all welds.			
5. Is Annual Inspection due?			
If machine ownership has changed complete attached Owner Update form and return to JLG.			
Comments:			
			_

The undersigned certifies that this machine has been inspected, per each area the Owner/User, and that all discrepancies have been corrected prior to any further use of this machine.
