

In the current CMMC landscape, there are three levels:

1. If you handle Federal Contract Information (FCI), you must obtain CMMC Level 1
 - Certification is done through self-attestation in SPRS
2. If you handle CUI, you must obtain CMMC Level 2
 - Certification is done by a 3rd Party Assessment Organization (3PAO)
3. If you participate in a specially designated program, you must obtain CMMC Level 3
 - DoD has not finalized the process for CMMC Level 3

The final CMMC rule has not been published yet.

Any documents marked as the following are considered CUI (including but not limited to):

- ITAR
- EAR
- Distribution Statement B
- Distribution Statement C
- Distribution Statement D
- Distribution Statement E
- Distribution Statement F
- For Official Use Only (FOUO)
- Controlled Unclassified Information (CUI)

The DoD CUI Registry (<https://www.dodcui.mil/Home/DoD-CUI-Registry/>) provides a more complete listing of indexes and categories of CUI.
